# The Board's First Responsibility: Detecting and Communicating a Compelling Vision

Mission? Vision? Strategic Plans? Goals? Effective school boards know that their primary responsibility is to identify and clarify the district's ends based on community values and aspirations. But where do they begin...how do they proceed? This workshop will help you develop a process and a plan for doing this important work. Participants will discuss and practice detecting their community's values and aspirations for their public schools; articulating a compelling, shared vision for their district; and aligning the school board's work and the entire school system with that vision.
