School Board Member, Leadership Graduate.

Where Future School Board Leaders Learn To Succeed

Join Illinois' most effective school board leaders. Take part in IASB's leadership training programs and earn membership in its Leadership Academy. You'll learn practical skills to create better communities, help students realize their full potential and get the most from your board experience. Plus, you'll study more effective uses of public resources and strategies to retain and expand local control.

Leadership programs are offered at many locations around the state and are financed by your board's existing training budget. So realize your dream to lead. Call 217-528-9688 and ask for a copy of School Board Leadership. Or visit www.iasb.com.

Save up to \$100 by enrolling in an IASB Leadership package
