Partnering to bring you efficient board meeting packet preparation tools and effective governance references all in one place

## What is BoardBook®?

BoardBook is a web-based application that streamlines the preparation, distribution, and publishing of agenda packets. BoardBook builds a searchable archive of meeting packets and approved minutes. It opens the door to electronically distributing the agenda to the board, posting selected materials online and conducting paperless meetings.

## What are some of the benefits of BoardBook?

- Save on printing and copying expenses
- Significantly reduce agenda preparation time
- Timely delivery and availability of board meeting materials to school board members and the public
- Links to IASB and local district resources
- Extremely easy to learn and use

## What IASB resources will be immediately available?

One click access to:

- IASB Governance documents
- Resources on running effective meetings from public notice to publishing meeting minutes
- Pertinent legal and policy references
- Board meeting evaluation tools
- And much, much more
