

The Challenge... and the Solution

School districts throughout America need highly skilled chief executives with a passion to lead! Through effective organizational leadership, superintendents can be catalysts for shaping mission-driven school systems that inspire a culture of excellence, where quality teaching and community engagement support our youth for success. That's why hiring a superintendent is such a critical function for school boards.

Finding a superintendent often requires an executive search, which can be a time-consuming, challenging and complex endeavor. Your state school boards association has highly specialized, professional assistance ready to design a well-organized search that will attract quality candidates and adhere to the highest standards of ethics and effective school governance.

NASS members have extensive knowledge of state laws affecting all aspects of the hiring process, including the superintendent certification guidelines in each state (which can serve to protect the district and the candidate). Unlike any other search firm, NASS members have extensive knowledge of effective governance, understand best practices in school district leadership (including goal setting, strategic planning and superintendent evaluations), and use proven strategies to develop productive board/superintendent relations.
